

PLAYGROUND PERMISSION FORM

Comprehensive Rehab provides an opportunity for treatment outdoors utilizing our playground equipment. The functional playground equipment consists of a fully enclosed, waterproof playhouse, four working windows with screens, one arched window, a working dutch door, ladder, slide, rock wall, ramp, and different types of swings. The surface underneath the playground equipment is poured rubber to help ensure your child's safety. Also included are a sand box and a variety of outdoor toys. We are very excited to implement our playground into your child's therapy time. As your child is playing outside on the playground, there is a chance he/she may get grass stains, dirty shoes or dirty clothing and possibly sand in his/her shoes. Our playground equipment can be utilized during all weather-permitting days.

If you would like your child to refrain from the use of any playground equipment, please list restrictions here: _____
